

NOVEL CENTRIFUGAL FIBROUS BED BASKET (FBB) FERMENTOR

Salient features :-

1. Suitable for shear sensitive cells
2. Suitable for highly viscous broths
3. Suitable for anchorage dependent as well as anchorage independent cells
4. Suitable for obtaining cell-free extra-cellular metabolites
5. Can be operated in batch, fed-batch & continuous mode
6. High oxygen transfer rate (kL_a) at low power consumption
7. Suitable for contamination-prone as well as contamination-resistant cultures
8. Suitable for laboratory, pilot plant & commercial applications
